Acknowledgements

My thanks go to—

- *Jacinta Smith*, who read and approved the first draft;
- to *Owen Holmwood* who, with his son Peter, accompanied me in a sailing boat many years ago on a week long exploration of Port Stephens, the Myall River and the Myall Lakes, and kept me awake at all hours of the night as he conversed with fellow ham radio enthusiasts throughout the country; who repeated part of the exercise with me in a smaller sailing boat some seventeen years later, corrected my blundering attempts to convey in writing the practice and argot of the ham radio operator, allowed me to use his call sign [VK2AEJ], and proofread the first draft;
- to *Andy Cairns* with whom I have sailed and walked the margins of the Myall Lakes over 20 years and with whom I first visited Snapper and Corrie Islands and suffered the attacks of 10,000 sand flies; and
- to *Mark Smith* who allowed me to use his call sign [VK2TTC] and who carried out the internet publication;
- and to Fr Jim Tierney who vetted the final draft.

Also to the late Fr Tom Barden S.J. [1910-1997], fine disciplinarian and best of French teachers, who was the chief inspiration for the character of Father Kevin Hannan, and who would have been scandalised at the suggestion that he had indulged in even a fraction of Kevin Hannan's physical activities.

Warning—

To anyone who would seek to emulate the short odyssey of Tom, Cate, Bill, Mark and Liz set forth in these pages: watch out for the stinging trees on Snapper Island and the sandflies on Corrie Island. Oh, and there are ticks, too, when you get to the Myalls!
